

How do I ensure my project runs on time, on budget and successfully delivers quality outcomes?

Answer:

Become qualified in Project Management

What is Project Management?

Project Management is the discipline of organising and managing resources to successfully complete a project. Project Management can also be described as a way of successfully managing change.

By definition, a project has a clear beginning and end, and stands outside 'business as usual' functions. This distinction has necessitated the development of specialist project management skills.

Program Management is an established industry discipline, and skilled practitioners are in strong demand from organisations across all sectors. Talented and professionally trained Program Managers bring real value to organisations. Their skills in effectively managing components such as strategic benefits and outcomes and teams of people, provide organisations with a strong and sustainable future. Effective program management allows projects within the program to be completed efficiently, enhances customer satisfaction, improves quality, supports continuing growth and provides organisations with a more competitive edge. It's no wonder professional practitioners are in high demand and enjoy abundant career opportunities. responsibilities of Project Managers vary considerably, and is pleased to offer three

distinct Project Management programs. Each qualification's materials has been developed consultation with industry leaders. The course materials include coverage of the Project Management Body of Knowledge®, the BSB Training Package, and the Global Alliance for Project Performance Standards.

Candidates receive comprehensive development in the management of governance, time, cost, quality, scope, human resources, risk, communications, integrative processes and procurement with each component varying in detail and level according to the program selected. Our specialist qualifications provide practitioners with the essential skills to successfully navigate the world of Program and Project Management.

CLIENTS	<p>Candidates will include individuals wishing to understand, and demonstrate competence in the duties of a project practitioner. This qualification is suitable for autonomous individuals who identify and apply project management skills and knowledge in a wide variety of contexts. Job titles for these roles may include contracts officers, project administrators, quality officers and small business operators. Individuals in these roles might be members of a project team, with no direct responsibility for overall project outcomes. Primarily, these roles would support wider project operations. They may use project tools and methodologies selectively to support organisational or business activities.</p>		
DELIVERY AND ASSESSMENT ARRANGEMENTS	DURATION The program is delivered over a period determined for each candidate. Determined by pathway, it is anticipated that most candidates will take between 6 and 24 months to complete the requirements of the qualification.		
	ORGANISATION The required Units of Competency are underpinned by the 12 knowledge areas and the 5 project management processes that constitute the Project Management Lifecycle. These requirements are outlined in the Project Management Body of Knowledge [®] (PMBOK), which, along with the National Competency Standards for Project Management training package and ISO 21500:2012, provide the primary references for this program. The program is organised to provide candidates with the necessary knowledge, skills and performance requirements for employment as a project practitioner. All 9 (nine) units of competence are required to complete the qualification requirements. The 9 Units of Competence consist of 3 core units and 6 elective units (3 units must be from Group A# elective units above and the remaining 3 units may be from Group A#, Group B* or any endorsed Training Package or accredited course at Certificate IV level or higher. Elective units must be relevant to the work environment and the qualification, maintain the integrity of the AQF alignment and contribute to a valid, industry-supported vocational outcome.		

Interlink Technology are a dynamic group of training and consultancy companies, who specialise in the provision of practical professional development programs, which are tailored to the needs of individual workplaces.
